

ODZALA DISCOVERY CAMPS

Transfer Options

The easiest and quickest route between Brazzaville and Odzala is by air. We have been able to organize a private charter flight each Thursday that corresponds with our Odzala Discover 7 night itinerary. The aircraft is a South African registered twin engine LET 410 that carries our guests and their bags safely to and from our camps. It is a quick and convenient way to get you started on your Odzala adventure.

For the more adventurous travelers who have more time, CCC can provide road transport from Brazzaville to the Odzala Discovery Camps.

Due to the distance between Brazzaville and Odzala this transfer departs Brazzaville before the sun comes up. Our bus (affectionately dubbed the purple turtle) makes its way 650km up the tar road to the small town of Etoumbi. This journey takes approximately 10 hours and crosses the equator, and passes the president's home town and several scenic rivers on its way. Etoumbi is where the tar-road stops and the forest starts and we use game viewers for the final 75km, 3 hour stretch to our camps.

After a short break in Etoumbi, our game viewers and guests cross the Likouala-Mossaka river on a hand operated pontoon ferry. From there, the trees become larger and the villages become smaller as you are driven into the forests towards Odzala.
